## Where is your company headquartered?

## FLEXIBILITY OF A LOCAL NETWORK WITH POS

## Point of Service (POS)

With a POS plan, your employees have in-network access to $99 \%$ of the doctors in our 13-county service area. These plans are flexible and the most affordable for those who get health care close to home

COVERAGE BEYOND THE CAPITAL REGION WITH PPO, EPO, AND EX NETWORKS
Preferred Provider Organization (PPO)/ Exclusive Provider Organization (EPO)

- PPO and EPO networks offer the same great local coverage. They go the distance with employees who live or travel outside the POS service area.
- PPO coverage includes all BlueCard ${ }^{\circledR}$ providers both in and out of our service area.
- With an EPO network, your employees must see a Highmark Blue Shield provider in our service area. Nationally, they'll have access to the entire BlueCard PPO network.

## Expanded network (EX)

- EX network offers great local coverage, plus in-network access to doctors outside our region.
- It works best for those living or working in the 13-county service area, but receiving treatment or services elsewhere Your employees must choose a participating PCP in our service area who will coordinate care in and outside the region.

## CARE COST ESTIMATOR

Employees can know what they'll owe for care.
Before making an appointment for a test, scan, or procedure, your employees can use our Care Cost Estimator to estimate their bill

## Important plan details

Out-of-pocket maximum calculation includes deductible, copayment, and coinsurance.
1 Primary care cost-sharing amounts also apply to outpatient: mental health, behavioral health, substance abuse, chiropractic, physical therapy, speech therapy, and occupational therapy office visits.
2 Integrated Rx plans include all medical and prescription claims accumulating toward one overall deductible.

3 Embedded plans: In this approach, an individual family member can be eligible for payment of benefits upon meeting the individual deductible amount (even if the rest of the family has not met the family deductible amount). Additionally, an individual family member's out-of-pocket (OOP) maximum will be the same as that of a member purchasing individual coverage for the specified health plan.

## Notes

4 A health savings account (HSA) is available to employees. Employer contributions in amounts that exceed annual federally mandated maximum(s) may result in actuarial value changes that may impact compliance as a qualified health plan.
5 Non-embedded plans: In this approach, the entire family deductible must be met before any family member is eligible for payment of benefits. Additionally, the entire family out-of-pocket (maximum) must be met before the plan begins paying $100 \%$. One family member may satisfy the entire family deductible and/or OOP.

This is not a contract. This benefits summary presents plan highlights only. Contract limitations and exclusions apply. Please refer to the member contract
for complete information. To determine the availability of services under your health plan, please review your contract for details on benefits, conditions, and exclusions or call the number on the back of your member ID card. Information above presents in-network plan highlights only. PPO and POS plans also
provide benefits for many out-of-network services, generally with higher member costs sharing. Please see plan materials for information.
